Dear Charlie,

Enclosed herewith are four copies of a letter to General Flickenger. Would you pass the original and one copy to him if you believe he can spend some time considering the problem. The other two copies are for your files.

Best regards

Milt

Dear Don,

The attached report describes in somewhat more detail the problem we talked about at the last Suppliers' Meeting. Would you please review it and offer us the benefit of your advice.

I think we should keep in mind that this is a backup system and should have very low priority since its accuracy can always be worked on much later in the program.

Best regards

Mike
